Core Range

Lighting Your Spaces with Fast-Delivery Solutions

Experience excellence with enLighten's Core Range—your go-to for reliable, innovative, and high performance lighting solutions.

This range includes detailed data sheets along with fittings eligible for various state based government rebate schemes. To further assist you, we provide spacing tables that indicate correct spacings and heights to meet Australian standards, taking the guess work out of compliance. All of our luminaires come with a minimum five year warranty. We carry large levels of stock of most of our products for your convenience and these are readily available from our St Leonards warehouse.

Choose enLighten for quality lighting that exceeds expectations. Need assistance? Contact us

Don't have what you're looking for? Check out our Extend range for a broader range of lighting options.

Extend Range

Transform your spaces with our Extend Range

Can't find what you need in our Core Product Range? Explore enLighten Extend for a broader range of lighting possibilities.

We've selected these lights from our trusted manufacturers' that meet our standards of reliability, robustness, value for money and customer focus. All of these products will come with our guaranteed five year warranty and are backed with our usual high levels of support and commitment to quality and integrity.

As your projects come with unique requirements, we're here to fulfill them. This means we have the capacity to provide a diverse range of lights that suits your specific needs. To maintain this flexibility, we won't keep these products in stock; instead, they will be available on order. These fittings will be on a project basis, so there will be a lead time involved.

Discover enLighten Extend Today. Contact us if you need assistance or have specific requirements.
