

# enLighten Tauro Black CECS

## Installation Instructions

The Tauro Black CECS is fitted with a wireless receiver to connect to the CECS master controller for car park entrance light control. The lights will form a wireless mesh network when connected to mains power.

**!** All electrical work must be carried out by a qualified Electrician in accordance with the latest wiring regulations. Light must be operated within its specified operating parameters and in accordance with our warranty requirements. These documents are available on our website.

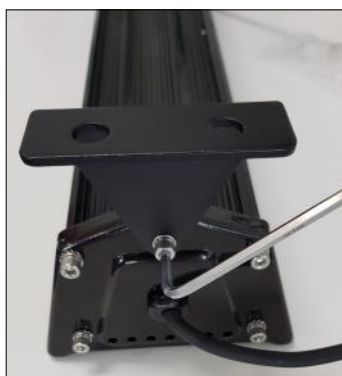

Included in box:  
2x surface mount brackets and  
2x bolts

Model #	Rated Power (W)	Size LxWxH (mm)	Weight (kg)
TB90D	90	718 x 137 x 102	4.7
TB120D	120	948 x 137 x 102	5.7

### Surface mount using the surface mount brackets

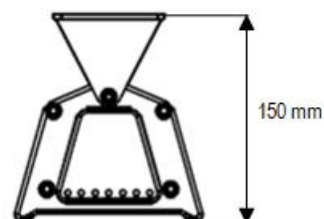

Surface mount brackets

Connect the surface mount brackets onto each end using a 4mm Allen. Then mount the fitting to the ceiling.

### Dimensions with surface mount brackets

Please refer to the spacing tables for the car park entrance control system (CECS) for the correct spacing between the light fittings in the car park entrance.
